EDUCATIONS

Univesity of Pamulang, Informatics Engineering S1 | Januari 2024 - now

Bootcamp Immersive Fullstack Javascript Hacktiv8 | Sept 2020 - June 2021

PKBM YCAB Manggarai
Graduation High School (SMA - IPSJuly 2017 - June 2020

SKILLS

Frontend:

- Vue Js
- Nuxt JS
- React Native
- React Js
- Ionic
- PHP/Laravel
- Flutter
- Next JS
- Typescript
- Pinia
- Tailwindcss
- HTML/CSS
- Jquery
- Redux
- Bootstrap

Backend & Others:

- Node JS
- GIT
- Javascript
- Dart
- Express JS
- C++
- MYSQL
- Java
- Restfull API
- PostgreSQL
- AWS Cloud
- MongoDB
- MS. Office
- GraphQL

Learning:

- Machine Learning
- AI Engineer
- AI Prompt Engineer
- Angular
- Golang

PROJECTS

- HRIS Admin Web
- Coretan Saku App
- Shop Tajimingo
- HRIS Career Web
- Catinder App
- Kebun Translator App
- Entry Data System
- Smart Inventory AI

EXPERIENCES

May 2025 - September 2025
PT. Personel Alih Daya (PERSADA)
Front End Developer

- Implemented robust end-to-end API integration, handling errors, loading states, and data transformation to deliver a seamless and responsive user experience.
- handle code structure to keep code clean and reusable components

August 2023 - December 2023
PT. Tricitta Synergy | https://tricitta.co.id/
Front End Developer (project based)

- Architected a scalable, component-based frontend with Vue.js, promoting code reusability across three core applications in the Bapenda HRIS ecosystem.
- Played a key role in developing three distinct platforms for the Bapenda HRIS: a Mobile App, an Admin Web Panel, and a public-facing Career Web Portal.

May 2022 - August 2023
PT. Kebun Technology Indoensia | https://kebun.tech/
IT Engineer

- Developed functional Single Page Applications (SPAs) from UI/UX designs (Figma, Adobe XD), ensuring seamless integration with backend APIs.
- Successfully implemented critical features, including the Stripe payment gateway and internationalization (i18n) to support the Japanese market.
- Led the maintenance and executed a successful system upgrade for the Tajimingo application to PHP Laravel 7.

July 2021 - April 2022
PT. Asian Sigma Technology
Front End Developer

- UI & Architecture: Translated high-fidelity designs (Figma, Adobe XD) into functional Vue.js components within a Single Page Application (SPA) architecture.
- API & Data Integration: Handled and integrated API responses from the backend to display dynamic data on the client-side.
- Advanced Features: Experienced in integrating essential third-party services, including the Stripe payment gateway and internationalization (i18n) for the Japanese market.

ACHIEVEMENTS

- AWS Certified Cloud Practitioner | By AWS
- Certificate of Graduation Bootcamp Immersive Fullstack Javascript Hacktiv8 | By Hacktiv8
